NATIONAL ORGAN WAITLIST–RECIPIENT LISTING GUIDELINE

Purpose

This document identifies transplant candidate categories for listing in the National Organ Waitlist (NOW) registry, and the use of the NOW registry.

1.0 Listing Requirements for National Organ Waitlist Registry

1.1 All non-renal transplant candidates, irrespective of patient status, are to be listed on the NOW. This includes:

- Heart
- Lung
- Liver
- Pancreas / Islets
- Bowel
- Stomach
- Multi-organs, e.g., Heart/Lung, Heart/Kidney, Kidney/Pancreas

2.0 Optional Listing of Local Kidney Patients

2.1 The NOW registry can be used by region/provinces to, at their discretion, maintain a local, provincial or regional renal waitlist.

3.0 Listing of Highly Sensitized Renal Patients

3.1 Upon introduction of the Highly Sensitized Patient Registry functionality, highly sensitized kidney patients can be listed in the Canadian Transplant Registry for participation in the Highly Sensitized Patient registry. (See CTR.50.001 HSP – Recipient Eligibility)

4.0 Single Centre Listing

4.1 Transplant candidates of all organ types, can only be listed with one Canadian transplant centre.
